## Reinigungsmittel für Griffe und Knöpfe:

- ▶ Weiches, fusselfreies Tuch und wasserlösliche milde Reinigungsmittel wie Flüssig- oder Neutralseife verwenden.
- ▶ Keine Scheuermittel/-schwämme, Nitro-Verdünnungen oder reizende/ätzende Chemikalien verwenden, diese können die Oberflächen langfristig schädigen!
- ▶ Generell sollten Flecken so schnell wie möglich entfernt werden, um ein Einziehen in die Oberflächen zu vermeiden.

## Cleaning products for handles and knobs:

- ▶ Please use a soft, lint free cloth and mild water-soluble detergents such as liquid or neutral soap.
- ▶ Do not use any abrasive cleaners, scouring pads, cellulose thinners or irritant/corrosive chemicals as these may damage the surface over time!
- ▶ Marks should always be removed as quickly as possible to prevent them from staining the surface.

## Détergent pour poignées et boutons :

- ▶ Utiliser un chiffon doux et non pelucheux avec un détergent doux et soluble dans l'eau tel que du savon liquide ou neutre.
- ▶ Ne pas utiliser de détergents abrasifs, ni d'éponges à récurer, ni de diluants pour laque cellulosique, ni de produits chimiques irritants/corrosifs qui risquent d'endommager à long terme les surfaces !
- ▶ D'une manière générale, il faut effacer le plus vite possible les taches pour éviter qu'elles ne s'incruster dans les surfaces.

## Reinigingsmiddelen voor grepen en knoppen:

- ▶ Gebruik een zachte, niet pluizende doek en in water oplosbare, milde schoonmaakmiddelen als vloeibare zeep of groene zeep.
- ▶ Gebruik geen schuursponsjes/schurende schoonmaakmiddelen, nitroverduunners of bijtende/irriterende chemicaliën, hierdoor zouden de oppervlakken op termijn beschadigd raken!
- ▶ Vlekken moeten altijd zo snel mogelijk worden verwijderd, zodat deze niet in het oppervlak kunnen dringen.

# TOUCH-IN

Schafft Gestaltungsfreiheit in Form und Farbe  
Creates design flexibility in shape and colour  
Pour agir en toute liberté au niveau de la forme et de la couleur  
Biedt vrijheid bij de vormgeving, zowel qua vorm als kleur

## Das besondere Griffenerlebnis

In nahezu grifflos erscheinenden Fronten verbirgt sich, so einfach wie raffiniert, die Griff-funktion von Touch-in. Mit den modularen oder einbaufertigen Griffen können Sie vielfältige Varianten realisieren – designgleich zur Front oder kontrastierend. Touch-in-Griffe können vom Verarbeiter in Frontfarbe lackiert oder mit einem Wunsch-dekor beschichtet werden.

## The unique handle experience

Ingeniously yet with amazing simplicity, the Touch-in handle function is concealed in front panels that almost seem to be handleless. The modular or ready to install handles give you a wide choice of design options – matching the front panel or contrasting with it. Touch-in handles can be lacquered by the fabricator in front panel colour or finished in any chosen decor.

## Une expérience particulière avec les poignées

La fonctionnalité de la poignée Touch-in est dissimulée simplement et subtilement dans les façades paraissant presque dépourvues de poignées. Les poignées modulaires ou prêtes à être posées vous permettent de concevoir d'innombrables variantes – soit en parfaite harmonie avec la façade, soit en contraste. Les professionnels du meuble peuvent laquer les poignées Touch-in dans la couleur de la façade ou les revêtir d'un décor personnalisé.

## De bijzondere greepbeleving

In vrijwel greeploos ogende fronten gaat, zowel eenvoudig als geraffineerd, de greep-functie van Touch-in schuil. Met de modulaire of inbouwklare grepen kunt u veelzijdig variëren – designgelijk aan de front of contrasterend. Touch-in grepen kunnen in de frontkleur worden gelakt of met een decor naar eigen wens worden bekleed.
